her, could not even preserve her own capital hon-falling into the bands of the British. The lis-torian records that the bihabitants of Charlestor, as a body, preferred to return to their allegance to the British Grown, rather than to aid General

Liucoln to save it. So general was the defection to the American cause, and so many of the peo-ple of South Carolina bowed their necks anew ple of South Carolina bowed their necks ance to the yoke of colonial vassalage, that Sir Henry Clinton considered his triumph complete, and communicated to the British Ministry the intelligence, that the whole State had wielded submission to the voyal army, and had become again a part of the British Empire!

Soon after the tall of Charleston, and when disaffection to the American capte was so general, two hundred and ten persons, who etcled themselves to be the "principal inhabitants" of the city, signed an address to Sir Henry Clinton, in which they stated they have every inducement to return to their allegiance, and ardenity

in which they slated they have every induce-ment to return to their allegiance, and ardently hope to be admitted to the character and combi-tion of British subjects!

It is indeed a maryel that the South should at-tack the revolutionary character of Besnehusett-and seek to tarnish her bistory. We recently gave the numbers of the regulars enlisted in the Continental service, from the beginning to the close of the Revolution. Massachusetts familished 57,907. Every State south of Pomestants was 67,907. Every State south of Pennsylvania provided but 59,494, or 8,414 less than Massacha-

react out 37,474, or S,414 less than Massacha-setts alone.

The Continental Congress called upon Massa-chasetts for 52,678 soldiers; she farnished 67,-907, or 15,299, more than her quots. South Carolina was called upon for 16,032 soldiers, and supplied but 6,600, or 10,272 less than her quots. Agusta.

Now was the supply of men the most effective service rendered by Massachusetts during the Revolution. In adjusting the war balance, after the peace, it was ascertained she had overpaid her share in the sum of \$1.248,301 of silvermoney.

Let us compare Massachusetts with Vieginia Let us compare Massachusetts with Virginia For the years 1777-78-81 and 32, the quotas to be provided by the two States were precisely the same in Latralians and men. In the four remaington 22,081 soldiers, while his native Washington 22,081 soldiers, while his native Wirginia, though bound to enlist an equal number, actually furnished 13,405. The difference is 9,578—quite a respectable army;—Evening Transcript, 1876.

The Notural Affics.
The vote on the bill to admit the Free State of Kansas into the Union forthwith, draws the has very plainly and unmistakeably between the contending parties in Congress and in the country. Of the one hundred votes in favor of the bill all but three were Republicans. Of the ninety-seven negative votes all were Democrats or Know-Nothings. On this question, as during the struggle for the speakership and in the Hen-BEET matter, the Democrats and Know-Nothings worked and voted to ingly together. They are, undoubtedly, natural allies; being alike bitterly opposed to the Republican platform, to Free Speech at Washington and to Freedom in Kunsas. Let our adopted citizen; note these things and take warning before is be too late. If the South triumples in the approaching Presidential contest, one of their first steps will be to restrict the rights and privileges of adopted citizens, in order to discomage foreign immigration and check the rrowth of the Free States. And there will be Doughfaces' enough found at the North to help them in this, as in every other dirty work. Shivery and Know-Nothingism are and will continue to be. NATURAL ATLERS.

Rejuicing Topether.

The Know-Nothing organs unite with the Buchange prints in rejoicings over the passage of the Pro-Shivery Kansas Bill in the Senate As these two parties joined bunds in pasting this bill, it is but right and proper that they should exult towith the N. Y. Espress, Buffalo Commercial and other Know Nothing tracket. The Express announces the passage of the bill in gluing expitals and in the following terms: THE SENATE UNDOING THE KANSAS

THE OLD CLAYTON AMENDMENT FOR NATURALIZED OFFIZERS ONLY TO VOTE, PRE-VAILING

The "moendment" in question ractudes at foreign-born residents from voting unless they have been five years in the Country and perfeeted their Naturalization papers. This the N. Y. Express halls as the triumph of "the American Principle" in Kansas. And over this "triamph" the News, Argus and other professing friends of Adopted Citizens, rejoice and are exceeding glad.

Another Valuable Recruit .-- Dr. Stoddard kee R. R. Company and for many years a leading and influential Democrat in Dodge county, has repudiated the "Border Ruffian" and Bucharan party, and come out for Freedom and Fremont.-The Doctor made a capital speech at Fox Lake on the Fourth, denouncing the atrocious outrages in Kansas, and at the dirner in the afternoor gave the following toast which was received with mmultuous cheers :

Kansas.- Free soil, to stand upon; free men to improve and caltivate that soil; free speech free press; free rights and privileges; and last though not least—Freener!

Dr. Jeob's example will be followed by hundreds and thousands of honest Democrate through out our State.

Herbert who killed Keating, is the Know ing candidate for elector in California, and Col, Fremont says that such can support him without baccificing any "opinion," Why don't the Republicans who have a majority in the House attempt to expel him.—News, of yesterday.

The Republicans did move for a Committee of Investigation in this case, but they were voted down by the allied forces of the Democrats and Know-Nothings; Mr. Wells, the Democratic member from this histrict, voting with his broth-Democrats to protect their Know-Nothing ally, HERRERT. And the News, which now raises this hypocritical outery, approved of that vote!

ARGINER VOTE ON THE CARS.-A CARVAGE the passengers on the in-train of the M. & M. R. R. was again taken vesterday morning, and with the following result: Fremont 64, Backanan 11 Fillmore 4, not voting 12-total 50.

Mr. Georgies, of Milton, who handed us the tally gave that this is about the average vote on the cars, in the fields, and in the workshops of Wisconsin.

NEW YORK, July 3, 1858. MESSES, Epirons: -- To-morrow will be the glorious 4th-the day which is ushered in, over our vost domain, by the ringing of bells and the firing of cannous, and other demonstrations, indicative of a national holiday. When the flag of our Union is flung to the breeze on the morrow, from every house top, the parallel lines on the unting banner will contain no hidden sarcasm to those who behold there only the emblematic stars, and when the declaration of a people's freedom is read in every city and village, the number may be few who will ask what is all this

worth? or what does it mean? Would there was no necessity for turning a deaf car to the one, or a blind eye to the other, and if we could listen to the song of the charmer, we might believe the ecessity did not exist; and though we need not throw up our caps like those who welcomed Italy's Caesar, we can celebrate the day in our lings and casting it behind them, so that nothing earty, and pray that not far hence it may, in. deed, become what those who fought, bled and throngs of people assembled at Fox Lake this conquered in the day of trial, intended it should be--- i day of terror to tyrants, and an hontel, glorious day to their children for all time to come. The day now looks fair for being unusually ploasant; the scorebing heat of the past few days | the brows and features of these champions of seems to have exhausted itself, and cooling, in-

vigorating breezes now prevail. With its unbounded noise, dissipation and hcouse, the 4th, as calabrated here, must strike the stranger as being a most peculiar day. Should se be entering the "Narrows" from abroad, by nurise, the cannon and universal bell-ringing would startle him from his simpler, and as he abpropched the city, the Bay, dotted with myriads of steamers, ships and boats, decorated with flying colors, and crowded with excursionists, visit ing every desirable locality, and kept in a pleasing humar by hands of music and their own in

surces, in the shape of crackers and pocket-piz tols, his wonders would increase and go on doing so when the city's crack, crack, crack, and bang, bang, bang, began to smite his car and open his eves to the universal love of powder and noise prevailing among the people. While the city seems more crowded than ever, the suburbs swarm with picnic and other parties, and for 50 miles around the great bee hive you cannot find solitude enough to write a sonner on the subject. The masses being in the habit of pleasing themselves, are catered to by the city in rather a limited and irrational manner, giving one the idea

that its display is intended for no one in particular, or as a municipal "drop in the backet" to the general programme. The military and civil various public squares will attract vast crowds to witness the pyrotechnics which will be quite lavushly exhibited therefrom. A balloon ascension was to have been a novelty in the park, but matter of 100 dollars sent Mr. Godard to another and more appreciative locality.

The statue of Washington will see the light in Union Square to-morrow morning, and will be inaugurated by a military display, the' a more quiet demonstration was contemplated by those who erected the statue. Dr. Bethune will delivor an appropriate address, and it is to be hoped the audience will be as large and intelligent as the occasion deserves, and may the day come when a rise in sculptured marble or molten monze, will be an event as important, if not more

The recent purification of San Francisco a the hands of the people is an awful warning to rogues, as well as corrupt officials, and in spite of one's innate love for the majesty of the liw, tion, the best and soundest to which we have has met with a hearty approval here, and the prevailing opinion is that Gatham needs a similar purification, and nothing short of the same ple standing, and at the words course pursued at San Francisco will ever accom-

olish the desired end here. On under-crust has been thickened by the arrival of several gents whose talents were not uppreciated in California, and one of the party lin mangarated bia return by a very successful and darracteristic shoulder hitting demonstration, which in the way of repentance for past misdeeds and future good intentious, may be consid-

ered a very pretty beginning. The judicious intention of the English Govroment not to give Mr. Dallas his walking paper , is, by many, considered quite a feather in the cap of Young America, and proves that the gether in its enerces. The News here and the Eagle may flap his wings with impunity in the Argo, at Madison, sympathize heartily and fully tace of the Lion, the' there be some who view light of a bare-faced one, and are glad to get off with only a growl from the king of beasts. The audacity of Slave States in stopping and

disacusing Western emigrants on route for Kaneas, comes in for a large share of Eastern rebuke, and the opinion is general that the causes which led to our first revolution were but hilles conpared to those which we endure in these piping imes of peace. While the report of the Kansas Jonnmission tells its own story, and blackens the distory of the 19th century with a guilt which all time cannot efface or hery in obligion, our caures of law have again been showing up the beauties of the slave trade and its conection with our city. These trials seem in every case to result only in a loss of bail. The ourties oncaced in the unboly traffic are well mown here, and move about in all the glory and

safety of substantial wealth and high position, and to a man belong to the Union Safety party, and are Northern men with Southern principles, and the laws were not made for such as they sence we need the action of some determined Vigilant Committee to meet their case and many others; all of which is very naughty to say, I

Correspondence of the Sentinel. Fourth of July Celebration at Fox Lake! Messes. Engons :- In some work, on Mythology I believe, I have read of a custom among the ancients, at one of their annual festivals. of cutting out the gall from their sacilficial offerbitter should mingle in their festivities. The morning, the eightieth national festival, seemed to have followed the ancient custom which I have mentioned. Sov and hilarity, prosperity and unalloyed happiness, were impressed upon the soil, the yeomanny of the surrounding country, as they met to celebrate the birtiday of

America. Old and Young, foreigner and K. N., were all merry. At daybreak a cannon of home manufacture shered in the day; the sun rose with more than and splendor, shedding his rays on the waking village. Soon the boys commenced the snapping f fire crackers and discharging pistols. Teams ommenced coming in from all directions, and atting down their loads at the taverns, &c .-verything denoted a happy time, and all scemed

uxious to contribute for that purpose. About com a procession, headed by Gen'l Blake in full uniform on horse back, commenced to march through the streets; thirteen young ladies, dressed in white with a blue sash, a wreath of flowers on their head, and silken ringlets. enting tlags of the thirteen States; a hand of nusic-the Lowell band-and about 1000 people, after passing once through the village, proceeded to a grove west of the bridge and took seats to

listen to the proceedings.
Q. H. Baron, the President, announced the eder of the proceedings. Rov'd Mr. Fish, of the Baptist Church, the Chaplain of the day, pened with a beautiful and appropriate prayer, which all listened to with deep attention. Mr. Hiram Barber, a young man just commencing display will be limited, but in the evening the the practice of law in Fox Lake, read the Declaion of Independence, in a clear voice and excelent emphasis—the part of the eighth section alluding to the "obstructing the laws for the naturalization of foreigners, and his refusing to pass others to encourage their migration hither"-

semed to tell with some force upon a group of K. N.'s from a neighboring town. Next followed the oration by Dr. Judd, and an ble one it was; it seemed like the anatomist American Government; its beauties in theory were laid open before the audience; its perfections and its capabilities for the government of the people in peace and harmony if but properfelt were from its maladministration, and from true principles at its foundation. The Dr.'s al. lusion to Kansas was received with loud cheers. We cannot even give a synopsis of the era-

Dixon, of the Congregational Church. "The Stuple Products of Wisconsin-Wheat, atriotism and Babies," was the next toast, and loud calls were made for Mr. Barron, who replied

in a happy manner. Dr. Judd next rose, and said, "Let us not eparate without toasting, in a more direct form, Wowan-the last and best gift of God to man.' Loud cheers followed the announcement of is not a political lastitution of the Federal Gov this toast, and after a few volunteer toasts were handed in and read, the company broke up, painting of Paul Delaroche on exhibition, and many of them to rest, and get ready for three those who have not seen "Maria Antoniette" in balls in the evening-one at Porter's Hotel. ull her queenly dignity and suffering will have another at the American House, and the last at Pat Sullivan's, where about twenty couple were

The New K unsus Bill of Mr. Toombs
Pass de Kunsus to be a Sinve State.
After a continuous session of twenty hours, runsarer at their par value, -

After a continuous session of twenty hours, running fro a Wednesday noon, through the afternoon and night, and closing at about 9 c'clock. Thursday morning, the new Kansas bill originally introduced into the Senate by Mr. Toombs, of Georgia and adopted by the Committee on Tentiories, was passed by a vote of thirty-three for the bill o twelve against it. Let all the people read thi bill and remember it, for ic establishes another conspicuous landmark in the history of the slavery question in this courtry.

Kans a is to be a slave State. This was, we presum, on the part of Mr. Douglas, the intent of the division of the Nobraska Territory, and the object of the Kansas-Nebraska bill. It is the partient r purpose of this bill, and, if passed by the House of Representatives, it will accomplish the work.

national territory.

But will the House concur? Upon that ques-tion the whole case binges. We think it very likely that the Southern leaders of the Senate likely II at the Southern leaders of the Senate know wat they have been doing, and that they would not think of resolving upon sitting out the bill brough a session of twenty-four or twenty-eight hours, as the case night require, without a protty distinct understanding that the House i safe for the measure. The late test in that box y, by which the bill admitting Kanasa as a Free f tate was lost by one vote, is a strong indication in favor of this new expedient from the dication in favor of this new expedient from the

Senate. But will the Fillmore Know Nothings stand firm? We incline to think they will, because the forlorn hope of their candidate is the South.

Assuring, then, that with the aid of the Fillmore n an in the House this bill will soon become a law of the land, we have no hesitation in deck ring it equivalent to the admission of Kansas as a Slave State. The President is to appoint the commissioners to carry out this law, and to uperintend its execution; and after all the presented preliminates shall have been filled, the settlers of Kansas, under the limitations set down, are to vote upon the questions of a m w constitution—slavery or no sheery The endum of the bill is in the executive author The circum of the bill is in the executive authority of Mr. Pierce, and in the limitations defined. The "I order Rufflans," by and with the advice and con cent of the administration, have expelled the bull of the Abolition and Free State settlers by fire and sword; the Torditory is in the occupation of the Pro-Slavery squattors, including, doubtless, many valuable land claims, town sites, &c., cor quered from the Northern emigrant colonies, and held by the ancient founds tenure, that He shall get who has the power, And he shall keep who can.

The Northern abolition and free soil squatters thus driven off, impoverished and disposeesed.

thus or ven off, impovershed and dispossessed, will hardly desire to try their unfortunate piguinage to Kansas over again; but if they should desire it they can headly be mustered back into Kanasa n sufficient numbers to out-vote, on the day app duted, the convenient Missourials, who have on y a three month's sojourn to undergo in the Territory to secure the golden prize. Hence our conviction that the passage of this bill is a nivalent to the admission of Kansas, in

o many words, as a slaveholding State.

The 1 port of the Kansas lavestigating Committee i, un ugly affair. Its facts and circumstantial, pecifications are hard to get over. They be long held in remembrance for his many vir-tues.

The worst reports of Governor Reeder and others against the "border ruftans." It is shown by this report that these invaders, under to Kans: s on the same benevolent mis which C omwell was nest over to Ireland—that is, to posish the rebei Free State Synatters and

to eat out their substance.

It may be urged by the nigger worshippers that the hill gives the lie to squatter sovereignty—that it steals into Kansas like a thiel—that DESTRUCTIVE FIRES IN CHICAGO.—About 10 in the prescribed term of residence to voters it is a sha neless fraud upon popular rights—and chat in the amendment excluding all aliens not fully nat realized from voting in the territory, as they were permitted to vote by the original Ne-braska bil, this new measure betrays the hundlin-ting servicity of Northern Senators to Southern nigger-d ivers; but what of all this? Is no saved but a small portion of clothing and furniture. Damages some \$15,000.

On Monday night the extensive sale stable of G. G. Sutherland took fire, and was burned with 123 horses. Twelve or fifteen other buildings, mostly dwellings were burned, the whole loss being some \$25,000. A little child was burned to the st ndard of Governor Wise, at least ten being some \$25,000. per cent Horrible Treatment of Free-State Prisaners at TECUMSEH. THEIR TRIAL FOR TREASON. Thre: Remanded and Five Acquitted.

LAWRENCE, Kansas, June 28, 1850. I have already told you that eight prisoners, (Free State mon) who were arrested near Ossa-watamie had been taken to Tecumsch for trial. The trial came off last week, and five of them were released, and are now in town on their way hone. I have learned many interesting facts connected with the affair that should go

hey had been kept near where they were taken about two weeks, guarded by United States trops, who were ordered to keep them in irons be most of the time, they had orders to remove them to Tacumsch. A scene them ollowed which has no parallel in a Republican Government. They were chained two and two by taking a common trace chain and using a padlock it each end, which was so fixed as to make a loss clasp around the ance.—Like a gang of slaves, they were thus driven on foot the whole distance, at the rate of twenty-live miles pe day, dragging their chains after them. The last sart of the journey was most torturing to them. They were unaccustomed to traveling—their c units had worn upon their ancles, until the person of them became out a comment of them. one of them became onite exhausted and was put in a vagon. What a humiliating, disgusting sight in a free government—to see a chained gang of men, who had committed no crime gang of men, who had committed no crime whatever driven sixty-five miles by their merciless persecutors to attend a trial, then have granted be men unconditional release, and no

provision for reuress!

They have convicted three of them of treason, while five are allowed to go free, when the test timony was general, against them all alike, with few exceptions. One of the prisoners, Jacob Berjamin, they could find nothing whatever Berjamin, they could find nothing whatever against—the witnesses did not even know him and the proceedings looked so ridiculous against him, that the Court has struck his name from the warr at and other legal or illegal papers, as you will see hereafter in the report.

They lave their chains here with them, and

their excition excites much curiosity. The one worn by John Brown, jr.—who is insuce in sonsequer ce of his inhuman treatment—is polished the oughly by his constant exercise while saving to be released, and is easily selected by its bright appearance. I understand that one of our citizens has obtained one of the chains, and intends to send it to Rev. H. W. PERMANENT GLOSS PAINT.

Important Improvement in Painting:

PERMANENT GLOSS PAINT for interior work has long been a desideratum. All painting in related from this self-self-self ind most opposite tints to the yellow color of the oil Lesel: the change being the more rapid as the paints excluded from the full light of stay.

It is subscriber, after a sufficiently long experience in its une, can recommend it as the only Gloss Faint in which this important defect is offectually remedied. This bean titul paint can be applied of any color, from the purest with paint can be applied of any color, from the purest with paint can be applied of any color, from the different ware cless of string, suitable for private develings, Ohneches, Hotch, &c., whilst in shifthancy and richness of surface it can issee all other paints; it possesses superior advantages a retaining permanently even the most delicate colors with which it is considered.
